Dear Professor Vandana Rani,

We have an internship requirement at our company. I hope we have reached the right person, if not, do forward this mail to the concerned person to take this discussion forward. I have mentioned the details of the internship below:

Eligibility: Should be studying in Electronics, Electrical, Instrumentation, Computer Science, IT or any other related branch. Students from all 4 years are eligible.

Internship duration: 2 months

Type: Work from home. This means that students could take up the internship even if their college semester is ongoing. Suitable break will be given at the time of exams.

Stipend: We offer a stipend to the students based on their performance during the internship.

Number of Interns: 20

As part of this internship, the students will work after their regular class hours and on weekends. We shall ensure that their regular study schedule is not affected. Here is a link to the detailed job description for your reference: [JobDescription_BolttIoT_Internship](#). Do share the same with the students of Govt. Polytechnic, Aamwala.

Selection process:

1. Interested students will have to visit this link <https://info.bolttiot.com/studentpartnerinternship> to submit a formal application. **Application deadline: Tuesday, 9th February 2021**, we will not accept applications for this batch after 9th of February 2021.
2. CV shortlisting
3. Telephonic interview round

The best performing students will be considered for a full time job offer (PPO).

We are eager to initiate this relationship with Govt. Polytechnic, Aamwala. For any queries, do send a mail to hr@bolttiot.com or you can also contact us on (+91)8881197198 followed by dialling 4 to connect to the HR department.

Regards,
Joyner Fernandes
