

## Notice

Passed out students of 2019 batch are informed that National Apprenticeship Promotion scheme (NAPS) is offering an opportunity for students to get trained. Students who have passed diploma in engineering can apply for Apprenticeship Training after enrolling themselves in the NAPS web portal. Different sectors like retail, electronics, agriculture, manufacturing, banking, etc, are available for training. The period of training ranges from 3 to 36 months depending upon the trade selected. Stipend is paid during the training period. At the end of the training period, certificate will be given by the respective industry. Selection of apprentices for Apprenticeship training is the employer's prerogative.

### **Following are some of the benefits for students:**

- Find jobs.
- Apply for Apprentice training.
- Gather special skills through on the job training.

### **Registration Process:**

1. Visit NAPS web portal [http:// apprenticeshipindia.org](http://apprenticeshipindia.org).
2. Register as a new user.
3. Look for better apprenticeship opportunities in the sector of your choice.
